

# NOAHLIST Factsheet

---

If you are considering starting a Classifieds and would like to join Noahslist.com, you would make the right decision. The fact is to properly run and maintain a great classified Ads Website "the right way" is very expensive. When thousands of people come together with effort, we can do anything and inexpensively as a collective group of Classifieds Professionals on the Web.

To begin with, we release our Famed Noah's Classifieds at a very reasonable price with no recurring like so many software-services don't do. However after seeing so many good folks spend so much of their hard-earned money and countless hours customizing their sites having little to zero results, it is just plain bad to see.

There are many reasons why we have developed Noahslist.com.

- Job Creation
- Cooperative Marketing and Collaboration
- To build One Huge Team of Creative and Talented Business People
- To have the webs largest People Driven Classified Ads Portal
- To build incomes for everyone involved

So there you have a few of the reasons of why we are doing what we are doing. Noah's Classifieds has the biggest and most reputable name in Classified Ads software as it is, and we know we can accomplish the very same thing in the Classified Ads Portal Space. In fact, it has already started.

Question: What are the costs involved? Does Noahslist get a revenue share?

Answer: It depends. In most Area's your portal will have a cost of only \$25.00 a Week. That is seriously cost-effective and Yes, we get a 20 percent Revenue-Share that we roll some into national marketing.

In other cases like the large metros there are higher costs but still very reasonable for obvious reasons.

We also host your portal on our very powerful speedy servers. Provide all the tech-support, upgrades and National Marketing. Do note, you are expected to locally market in your area and can even partner up with other Noahlisters in your state/regions etc... with localized cooperative marketing efforts.

Question: How much will or can I earn?

Answer: That's a great question and much of the income you earn will depend on how hard you are willing to work and market your area. We will do all we can on our end to drive buyer and seller traffic to you, but the details are what you do with your area Portal.

Question. What do I sell on my site and for how much?

- You have many abilities and products to sell. Featured Ads in about 145 available Categories.
- Rotating Banner Ads and Specialty Advertisements
- Make your own Ad Programs and Pricing. The list of ways you create are yours to earn from.

Question. I have my own site and my own business already and I would like to link my Noahslist.com portal to leverage what I have. Can I?

Answer: Yes, as long as it does not have questionable or Adult Oriented materials, etc.. Considering the cost at \$25.00 a week, that is more than a benefit to be a part of Noahslist.com

Question: Does anyone who applies for an Area get it?

Answer: No. We turn down more than we allow to join us.

There are many reasons. We need to make absolutely certain that you are a fit for us and that we are a fit for you. We also need to make sure you can fulfill the full responsibilities of running a Noahslist.com Portal as a real business, because that is what these portals are. A real business.

After we talk to you, we do send out an FAQ and a Contract. Our contracts come in 12 Month increments at which time we can each evaluate the portals successes and needs. After the first 12 months, we will have your area fairly established, and if you have correctly worked it, we are sure you will want to continue. We want every single person, business, family, etc.. to be successful, that makes everyone involved successful.

Question: How many Portals are you expecting to have?

Answer: There are roughly 43,000 communities in the U.S alone. Noahslist.com is setting up shop Internationally, so we really as of yet do not know.

While many communities will be covered by a large area Portal, there is still much need to cover even the smallest of communities throughout. These small communities will not impede the larger areas or the reverse of it. Every Noahslist.com Area Portal all work together as one-gigantic Classifieds Portal.

Question: Aside the Monthly cost for my Area Portal, what other things am I required to have.

Answer: It is a good idea to get a DBA (optional of course) but it is something you should do.

We supply the Merchant Accounts as the Portal will accept Credit and Debit Cards. The cost of the Merchant Account and Payment Processing Gateway is about \$25.00 a month. An SSL in your name will be required as well. We supply these at a \$29.95 a Year.

Outside of that, it will be up to you on what you know is best for your Noahslist.com Area Portal.

Call us at: 866-989-6624 or Inquire at: <http://www.noahslist.com> you will be glad you did!
